

JOB DESCRIPTION

Want to be on the **forefront of Intelligent Automation**?

Are you a motivated person with solid experience in developing and delivering complex digital solutions and project implementations?

Then you are the one we are looking for to join our team as an **OutSystems Consultant**. Furthermore, you will use our solid experience in delivering enterprise technology projects and combine it with our passion for client success in order to always meet and exceed project goals and customer expectations.

REQUIREMENTS

- Degree in Computer Science, Information systems or a related field;
- Min. 3 Years Experience working in OutSystems projects;
- Experience in OutSystems development for mobile;
- Mastering the complete development cycle at OutSystems;
- Ability to analyze Functional/Technical Requirements and translate them into deliverable items;
- HTML, CSS, Javascript, SQL and JQuery;
- Fluency in English (written and spoken);
- Motivated to work with innovative technological solutions in diverse international environments;
- Analytical and multitasking skills;
- Critical thinker and problem-solving skills;
- Autonomous, organized and communicative.

WE ARE OFFERING

- Joining a team that seeks to value and recognize each individual. A dynamic, flexible team that rewards merit and talent, promoting team spirit, goodwill and interaction;
- Participation in international challenging and highly innovative projects;
- Ongoing training and career development;
- Long-term career opportunity, stability and working within a competitive environment that promotes professional and personal growth.
